Accessories

RenoSys offers PVC grating designed for new pool construction and pool renovations. DuraTech is a 1" tall extruded PVC grating product that can accommodate any pool gutter or trench width. DuraTech Grating is certified slip resistant in accordance with ASTM test standards. DuraTech can be used independently or can be combined with a RenoSys gutter or liner system. DuraTech is also perfect for pool Bulkheads and anywhere a durable grating is required.

Profile

Technical Data:

Width of T-bar top	1.65" wide
Gap between bars	3/8"
Open area/sq.ft	18%
Grating height	1"
Grating upright thickness	5/16"
Grating web thickness	7/32"
Deflection 300 lbs @ 18"	3/16"
Surface texture	Slip-resistant
Warranty	10 Years

Standard cross rods at 12" on center.
Other spacing available on request.

Design & Product Information:

DuraTech PVC grating is formulated with maximum U.V. inhibitors added to 100% virgin exterior grade impact resistant PVC resin. Integral slip-resistance is embossed into the grating top surface as a standard safety feature. Custom configurations, radius bends and various designs are available. White is the standard DuraTech color.

Available perpendicular or parallel to the drainage trench in straight or curved configurations.
